ANNUAL TECHNICAL SERVICES CONFERENCE A SUCCESS

COLUMBUS, OH: American Municipal Power, Inc. (AMP) concluded another successful annual Technical Services Conference this week with dozens of participants from several member communities. The conference was held in Columbus March 13 and 14.

"The AMP Technical Services Conference provides an opportunity to increase technical understanding and capabilities, and learn about new products and technologies," said Marc Gerken, AMP president and CEO. "This year's conference was packed full of presentations by leading industry experts."

The conference is designed for those who operate distribution systems including electric utility managers, superintendents and technical staff. Industry experts, municipal utility directors and AMP staff presented on a variety of topics, including safety, energy storage applications, MicroGrid and reliability. The conference also featured a Vendor Expo of services and interactive displays of products related to the utility industry.

###

ABOUT AMP:

American Municipal Power, Inc. is the nonprofit wholesale power supplier and services provider for 135 member municipal electric systems in the states of Ohio, Pennsylvania, Michigan, Virginia, Kentucky, West Virginia, Indiana, Maryland and Delaware. Combined, these public utilities serve more than 650,000 customers. AMP members receive their power supply from a diversified resource mix that includes wholesale power purchases through AMP and the open market and energy produced at AMP and member-owned generating facilities utilizing fossil fuel, hydroelectric, solar, wind and other renewable resources. For additional information, visit AMP's website at www.amppartners.org.
